Ocoee, Florida 34761

Dear Doctor Kasem:

My wife and I wanted you to know how much we appreciated the fine care that you and your staff gave my daughter two weeks ago on March 12, 1990. The kindness and patience you demonstrated while caring for my daughter was exemplary. I work with children and parents on an almost daily basis and fully understand the anxieties provoked by situations such as the one in which we found ourselves that day. Therefore, I can personally attest to your talents in not only dentistry, but also psychology of human nature.

For your information, we spent a very enjoyable remainder of the week in Orlando. The subsequent success of our vacation was due to your fine efforts and abilities. My wife and I thank you and your staff most sincerely.

Sincerely yours,

Robert A. Goldschmidt, M. D.

From: Commanding Officer, Navy Operational Support Center, Orlando
To: Dr. Mohommad A. Kasem

Subj: LETTER OF APPRECIATION

1. I want to take this opportunity to express my sincere thanks for the dental support you provided to one of our Navy Sailors, Petty Officer Harold Anderson as he prepared for activation in support of Operation Iraqi Freedom. Your flexibility in scheduling enough appointments and accommodating his short lead time prior to his deployment were commendable. Petty Officer Anderson was mobilized with the confidence that he was in peak dental health and, as a result, could be relied upon as a critical construction team member on an extended deployment.

2. On behalf of all of our servicemen, I want to thank you for your support of our men and women in the Armed Forces.

Dr. Kasem

I am writing to convey my thanks for your high quality work. A Craftsman at affordable prices, who would have thought? You have given me back the great pleasure of eating, one of the few real enjoyments life has to offer.

You were my fourth attempt in less than a decade to obtain dentures that would allow me to eat properly. Until now all of my previous dentures were ill fitting, requiring constant maintenance and denture adhesive.

During our first consultation, you advised me that I was a candidate for implants, an option I previously considered, however the cost was prohibitive. The fee you quoted me was within my means so I accepted. First you constructed the best dentures I have had to this point, then we proceeded with the process of implants. The time-line for the process, most would give are usually overly optimistic. Your time-line was 100% (honesty). Attention to detail may be an irritant to some however this is a hallmark of a craftsman (integrity). Every step had to be right before you would move to the next.

The day you completed the last step, that evening, I went out and for the first time in just under a decade, I enjoyed a meal !! It was a pleasure to be able to eat without concern for my dentures. I am fortunate to have found you, to know that there are still those who practice a profession, who provide great service (uncommon) without the over riding concern for making as much as possible from their patrons.

Again My Friend, Thank You Very Much !!!

John Redmon

Dr. Kasem

I just want to thank you for the new dentures you made for me recently. I no longer have sore gums all the time nor do I have to constantly use denture adhesive to ensure my teeth stay in place. I have enjoyed many meals with no movement of my dentures and especially no food particles being trapped under them.

I have told my congregation about you and recommended they make their next appointment with you.

Again, thank you for an excellent set of dentures that I expect to give me many years of enjoyment.

John M. Ernest

I am writing to thank you for the great care which you provided to my wife when I brought her to you from Lake City Florida.

Not only did you completely remove and cure her long standing gum infection after other dentists had failed to do so, but you made a complete set of custom dentures for her, which she is proudly showing to her friends and family.

It is my observation that you are not only a first class dentist and denture provider, but that you are also a proud man who strives to excel in quality workmanship, while keeping in mind the comfort and well being of the patient.

At the same time, your prices, unlike our home area, are reasonable and fair.

From now on, when either of us has a dental problem, we will call you for an appointment, because the excellence of your work makes the 300 mile round trip well worth the drive.

Sincerely,

Bernard DaPron
Lake City Florida

Dear: Doctor Kasem, Blanca, Dolores and Staff,

I want to take a moment to thank you all, for all your hard work, talent and professionalism. When I first had the accident and saw myself with out a front tooth as shallow as it may sound I felt as if my life was over and my confident when down the drain, as I was searching for a place that not only was affordable to me but that actually knew what they where up against. I checked the yellow pages and came across Dr. Kasem in honesty the first thing that struck me was the price, then I read the patients reviews and I told myself I will check it out, when I walked in the office and I saw more patients reviews and the picture of the Staff in the lobby I was very much impress it felt as a family, as I spoke to Dr. Kasem and explain my situation he made me feel comfortable and not just as a number but as a patient. I am very happy with the my implant it feels and looks as if I never had an accident I could not be any more grateful for the time and dedication that I felt from everyone in the office. Dr. Kasem and Blanca even worked overtime on one of my visits being the last one out and even though they are out of my insurance network and that I live in Orlando and I had to drive about 45 minutes away I don't regret my decision. Now I am proud to be one of the patients that is writing a review on this magnificent experience with Dr. Kasem and his wonderful staff. I also make sure to recommend all my family and friends to Dr. Kasem. So if you are reading this review and still have doubts, believe me you are making the right decision by choosing Dr. Kasem.

Thank you
Sincerely,
Eliger Silva

Dr. Kasem B.D.S. .

Thank you and all of your
staff for giving me a
wonderful Hollywood visit
that I could afford.

Your office can do it all.
